RAZER LANCEHEAD TE FIRMWARE UPDATE V01.03.00

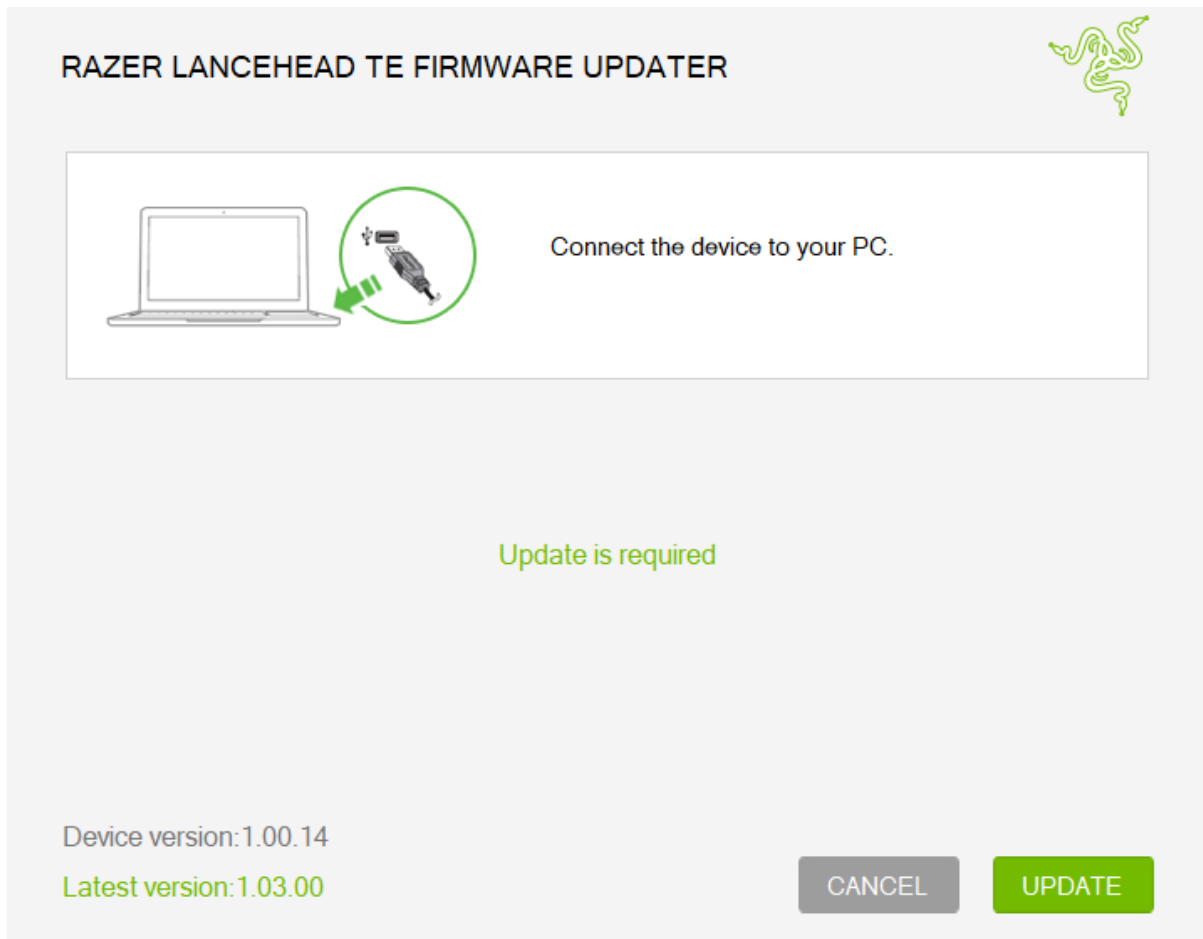

HOW TO UPDATE TO THE RAZER LANCEHEAD TE V01.03.00

This document is a step by step process on how to update the Razer Lancehead TE to firmware version 01.03.00

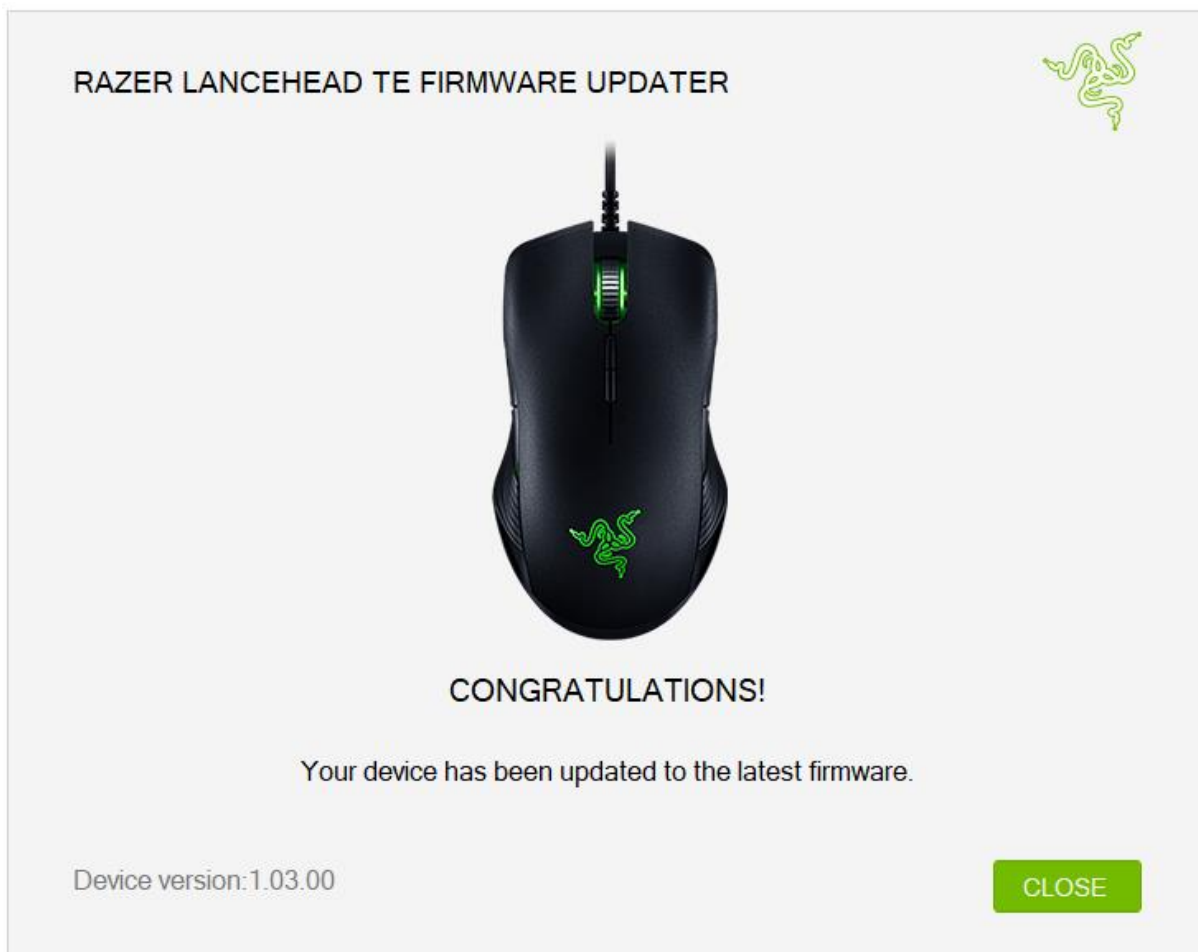

Release Notes:

- Fixes an issue when 2 buttons with different turbo speed values are clicked at the same time.
- Fixes an issue where the Keyboard/Mouse Function does not work correctly when plugged into a Non-Synapse system.

1. If you have not already done so, download the firmware update at the link below.
http://dl.razerzone.com/drivers//Sophia//win//LanceheadTE_Mouse_FirmwareUpdater_v1.03.00.exe
2. Connect the Razer Lancehead TE to your PC
3. Launch the downloaded file and left click the "Update" button

4. Wait for the firmware updater to complete the update process
5. You should see a confirmation message once the firmware update has been successfully applied.

6. End
